Photos

1

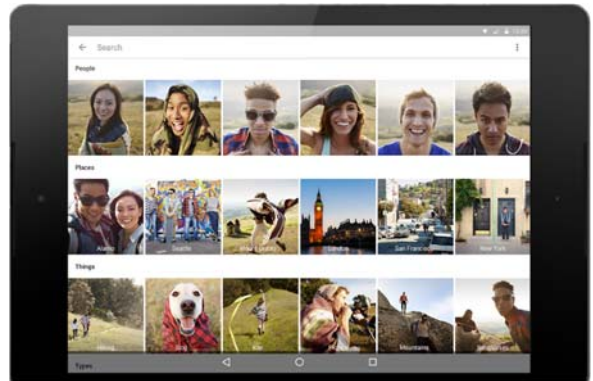

Find the “Photos” or “Picture Gallery” app

- Ask your adult learner to find the device’s picture gallery. They can look for the Photos app on the home screen or in the app launcher
- Ask your adult learner to tap on the Photos app icon to open the app. This icon will look different on some devices
- Explain to your adult learner that this app will show them any pictures or videos they have on the device

2

View the gallery

- Ask your adult learner to scroll through the gallery and look at the pictures
- Explain to your adult learner that they can tap a picture to see a bigger version. Ask them to tap on one of the pictures to view it in full-screen.

3

Open a picture

- Ask your adult learner to zoom in and zoom out of the picture. They can do this by pinching and spreading their fingers on the screen.
- Ask them to zoom in on a picture. Then ask your adult learner to swipe in different directions to see different parts of the image.

4

Delete a picture

- Explain to your adult learner that they can delete a picture. Deleting a picture completely removes it from the device.
- Ask your adult learner to take a photo with the device. Then show them how to delete that picture.
